

**SAM★INK®**

# Alternative Cartridges for HP Designjet Printers

Choose **Diatec** and **SAM Ink** 100% HP Compatible,  
High Performance Plug & Go Cartridges and save  
30-35% on your HP Designjet running costs.

In today's competitive environment, you don't have to pay HP prices to get best quality results from your HP Designjet printer.

## We can save you up to 35%

Your HP printer supplies represent about 30% of your office supplies budget. But did you know that you have a quality alternative that can save you up to 30-35% per cartridge?

You may have run across other brands that offer cheaper prices, but they didn't deliver the performance. SAM Ink produces true original equipment manufacturer (OEM) quality and still reduces your Designjet output costs.

## Broad range of models covered

Our Sam Ink replacement cartridge portfolio covers a whole range of HP Designjet printers. These plug & go cartridges are rigorously tested. They are 100% compatible with original HP cartridges; Indeed, they are so good that you can mix and match original and SAM Ink.

## Won't invalidate your HP printer warranty

Don't worry, using SAM Ink replacement cartridges won't affect your HP printer warranty. HP states on their website: "For HP printer products, the use of non-HP ink cartridge or a refilled ink cartridge does not affect either the warranty to the customer or any HP support contract with the customer. However, if printer failure or damage is attributable to the use of a non-HP or refilled ink cartridge, HP will charge its standard time and materials charges to service the printer for the particular failure or damage."

This is why we offer you a 100% guarantee. So you don't need to worry.

## Key benefits of Diatec SAM Ink alternative Designjet cartridges over HP original Designjet cartridges:

- Cost saving between 30-35% on expensive HP original cartridges - With SAM Ink there is no extra cost difference between black & colour cartridges, providing the customer with further savings.
- Longer print head life. The special ink composition of the SAM Ink extends the print head life by up to 50%.
- The SAM Ink alternative cartridge is a plug & play solution, just like your original HP cartridge. It is as simple as loading the original.
- The SAM Ink alternative cartridge solution is 100% HP compatible. You can also mix the SAM Ink alternative and the original HP cartridges in your printer. It's that good!
- Colours, drying time and light-fastness on the SAM Ink alternative cartridge all match the original HP cartridge. There is no need to make any adjustments whatsoever to your printer or settings.
- 100% media compatibility with the SAM Ink alternative cartridges.
- 100% satisfaction guaranteed and all at a great cost saving to your business or organisation.
- ISO 9001 Ink Manufacturer

## Diatec HP Designjet warranty statement when using SAM Ink alternative ink cartridges:

Diatec will provide a full warranty on HP Designjet plotters that use SAM Ink alternative ink cartridges. Diatec will cover any repairs and replacement cartridges costs should any damage arise due to alternative SAM ink being used.

The use of SAM Ink alternative HP cartridges does not invalidate any warranty with HP. Indeed, under European law, article 82, it is illegal for HP to do so. HP's own website covers this topic in some detail. "For HP printer products, the use of a refilled or non original HP consumable product does not affect either the warranty to the customer or any HP support contract with the customer".

It is reasonable for HP to refuse repairs to damage that is caused by defective ink. Should there be ink damage, it is always limited to the cartridge, ink-tube system and/or printhead, and Diatec will fully cover such repairs.

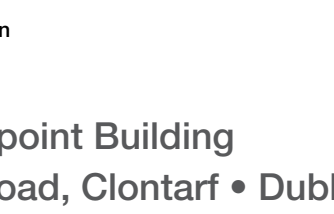

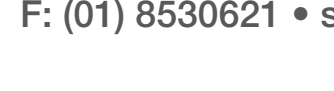

These SAM Ink alternative Designjet inks have been sold in 20 other countries, and since their launch have never caused any damage to HP Designjet printers. Indeed, in the UK alone over 2500 cartridges have been supplied to date, with only one single chip failure on the cartridge. This was rectified by a simple replacement of the cartridge.

# Put us to the test!

## Find out what you could save.

How many cartridges do you use a month and what do you pay for each? Now calculate what you could save by switching to SAM Ink replacement cartridges with 30-35% savings. Give our replacement cartridges a try. You'll get the same or better quality for less.
